The infant was taken to the house designated, where a nurse met Mrs. Browning and the incident was closed. The nurse took the child to the mother, but where the mother is, Mrs. Browning says, she does not know.

FALLS WHILE STACKING HAY

While aiding in stacking hay at Roy yesterday afternoon, Thomas Drumme, recently from Iowa, fell from the stack and suffered serious injuries. He was taken to the Dee hospital.

The attending physician states that the man suffered concussion of the brain and possibly internal injuries. He has regained consciousness, however, and the chances for his recovery are better than they were yesterday.

It is not known how he happened to fall from the hay stack except that the glare of the sun on the large hayfork dazzled and caused him to lose his balance. He fell over backwards and tumbled to the ground, a distance of about 20 feet, striking a pole as he fell.

UNCLE TO TAKE LLOYD BACON HOME

G. N. Smith, uncle of Lloyd Bacon, arrived in Ogden today and stated that, if the young man will go with him, he will take him to his home in New York.

It will be recalled that last week Bacon was committed to the state mental hospital after a lunacy board had declared him insane, since which time, however, he has improved so rapidly that today he is perfectly rational. Most of last week he was speechless and deaf.

Mr. Smith says he cannot account for the peculiar condition under which the young man was found as he had never known of his being affected in that way. He says that Bacon was well reared and that his parents are respectable well-to-do people of Great Falls, N. Y. He says that until a short time ago Bacon had a position in Redland, California, as chauffeur and that he may have been in an automobile accident there, but that he knew of no injury to his head before he went to Redland.

Bacon says that when he first came to Ogden he met a white man and two colored fellows whom, he thinks, took advantage of his condition and stole what money he had together with railroad transportation to his home. He had money and transportation when he arrived here but when taken to the county jail he had only \$11 and no ticket.

A few minutes before the bridegroom, Milton Peers arrived from Devil's Slide. With him was the other bridegroom, Angus McDonald. Within a quarter of an hour came Miss Lizzie Clark of Coalville.

They will spend their honeymoon in Ogden and make their homes at Devil's Slide, where both of the bridegrooms are employed at the cement

TWO MEN ARE CAUGHT IN A HOUSE

Upon receiving information to the effect that a house was being burglarized, Detective Charles Pincock and Patrolman Grant Sphers went to 1935 Grant avenue, at 1 o'clock today, and arrested two men who were in the place. The men, J. W. Steadman and Robert McCann, both of whom have appeared in police court for drunkenness during the last few days, claimed they were only using the place for lodging.

The house is said to belong to a family named Peterson. The occupants have been away and the place had been boarded up. Entrance had been made through a window, the glass having been broken, and the furnishings of the interior had been disarranged.

Steadman and McCann are being held on open charges while the case is investigated. Until the owner can be located, it cannot be known whether anything has been taken.

OLD SOLDIERS PROMISED A TRIP

A number of the soldiers of the civil war, members of the Dix-Logan post of the city, and some confederates are rejoicing over information received that Governor William Spry has decided to raise \$7,500 to pay their transportation to Gettysburg.

There are twenty-seven of the old soldiers in Ogden who desire to make the trip and it is hoped by them that arrangements for the visit will be made.

Colonel John V. Nelson says it will cost about \$75 each to send the veterans to the battle field of Gettysburg. The reunion will be held July 1, 2, 3, and 4 and the soldiers should leave Ogden by June 27.

The occasion will be the fiftieth anniversary of the battle of Gettysburg and it is intended that the men of the blue and the gray shall shake hands in friendship on the battlefield and forget forever all animosities between the north and the south.

The transportation will be for the old soldier of the south as well as the north.

TRAIN CAUSES DEATH OF A MINER

Guy Demarco, an Austrian, who is thought to be a miner formerly employed at Grass Creek, died at the Dee hospital yesterday as a result of injuries sustained by being run over by a Union Pacific train near Evanston Tuesday morning.

Trackmen found Demarco with his legs frightfully mangled, at 2 o'clock Tuesday morning and the injured man was removed to Evanston for medical treatment. Because of the seriousness of the injuries, the county authorities had him removed to the hospital at Ogden, but the injured man lived but a few hours after his arrival.

In the district court today Judge N. J. Harris issued a divorce to Ida Ella Ludwig against Franklin M. Ludwig, on the grounds of failure to provide and desertion.

Mrs. Ludwig testified that she married the defendant at Denver, Colorado, September 7, 1907, since which time he failed to provide for her necessities of life and that he had not lived in Utah for more than a year past. JURY SELECTED IN CANAL CASE

Yesterday afternoon, in Judge J. A. Howell's division of the district court, the following jury was empaneled to hear the case of Lyman Skeen et al. against the Warren Irrigation company et al.

J. E. Erickson, George Douglas, Arnold Bowman, William Holmes, W. H. Adams, Charles G. Price, George Sanders and F. B. Watkins.

Due to the funeral of Bishop W. W. Child, father-in-law of Juror William Holmes, hearing of the case was postponed until tomorrow morning.

The case was brought to get an easement right of way under the Warren canal for a conduit to be used by the plaintiffs in conveying water from the Weber river to their farm lands. The plaintiffs claim they have a water right for 2,000 acre feet and that it will be necessary to tunnel under the canal to get the water to their lands. It is alleged that the plaintiffs' canal will parallel the Warren canal for a distance and then pass under it through a siphon conduit.

The case of Thomas G. Burt et al. against Almon N. Millsbaugh et al. has been continued for the term and the same order was made as in the case in which the parties take adverse sides, the caption reading Millsbaugh et al. vs. Burt et al. The suits are brought to quiet title to certain parcels of real estate in the vicinity of Weber river and the Union depot.

HEAVY PROTEST MADE AGAINST PAVING

At the meeting of the city board of commissioners this morning, the recorder was directed to request the city board of education to vacate the three rooms the board is occupying in the city hall without delay. This action was taken to supply more office room for the city officers and employees, attention being called to the fact that the city sanitary inspector is in need of a larger place to attend to the work of his department and also that more room is required for other departments of the city administration.

A short time ago the commissioners offered a building site on Hudson avenue and Lake street to the board of education for a school administration building and partial plans were made for the structure. But of late nothing has been done respecting the erection of the new home. It is understood that the board of education still entertains the idea of building the home.

The Cheesman Automobile company

was granted the privilege of installing a ten-barrel gas tank at its place of business on Washington avenue, between Twenty-fifth and Twenty-sixth streets, it being stipulated that the tank shall be placed four feet under the sidewalk pavement and next to the curb line. The tank must be well covered with earth and the pump for extracting gas must be stationed inside the garage.

On recommendation of Superintendent J. C. Nye of the street department, the petition of property owners for a survey establishing a sidewalk grade at the north city limits and west of the Harrisville road, was denied. Mr. Nye stated in his report that the city had no intention of building sidewalks in that section and that he could see no good reason for the survey.

Extra work orders for curb and gutter district No. 108, amounting to \$1799.91, were referred to the committee of the whole.

City Engineer H. J. Craven reported that protests against paving Twenty-fifth street from Washington to Harrison avenues, amounted to 54.99 per cent of the property in the proposed district. The matter was referred to the committee of the whole.

It requires a two-thirds majority protest for the city to lose jurisdiction, but it has been the rule of the board where more than 50 per cent of the property owners protest against a proposed improvement to make further investigations before proceeding to build.

Final estimates in favor of the J. P. O'Neill Construction company, in the sum of \$2,374.24, for work done in sewer district No. 115, and \$11,614.50 for work in curb and gutter district No. 108, were allowed and the auditor instructed to draw warrants for the amount.

The petition of the Farr Development company, for water main extensions on Sixteenth street, was referred to the superintendent of waterworks. The company agrees to guarantee 8 per cent interest on the investment and offers to deposit \$250 as evidence of good faith. The extension is desired on this street east of the Glenwood park.

SHOPS SHOULD COME TO OGDEN

At their regular meeting today, the directors of the Ogden Publicity bureau passed resolutions expressing sympathy over the losses suffered by the Rio Grande company in Salt Lake. A copy of the resolutions was ordered sent to General Manager Brown of the road who is now at the Hotel Utah, together with a request that the shops of the company be built in Ogden.

The secretary reported that the maps of the Overland route through Wyoming and Utah to Nevada line had been completed by the draughtsmen and would be ready for the printer on Wednesday. The maps will be placed on file in the Publicity bureau office and at other points along the road for the convenience of the travelers and smaller maps will be printed to be carried by auto tourists.

In discussing the forthcoming N. E. A. convention, the directors decided to have two men in Salt Lake representing Ogden. Secretary J. D. Larson will be in the Ogden headquarters at the hotel Utah and another representative will be at the convention headquarters in the Klieh O'Brien building.

The directors will join hands with the local board of education in entertaining the delegates on Ogden day. Automobiles will be provided to take many to the canyon and a day of pleasure will be arranged.

To aid the bureau in keeping in touch with auto tourists, registers will be placed in the garages of the city upon which the cross-country autoists will be asked to write their names and addresses. This policy was adopted last year and will be followed along similar lines.

Trust not to luck if you would be lucky.
